

Technical Site Visit Report

Prepared for: BISINEER PROJECT - MAHATHI SENTHIL_Ecocity by SPA Group_9.8kWp_Hybrid

PROJECT INFORMATION

Report Number	ESV-2026-0105
Project ID	3CF859FC
Project Name	BISINEER PROJECT - MAHATHI SENTHIL_Ecocity by SPA Group_9.8kWp_Hybrid
Project Sector	Residential
Project Type	Without Subsidy
Sales Lead	John D
Site Address	NO. 6, 29/1-B, GROUND FLOOR KONANKUNTE INDUSTRIAL AREA AMRUTHNAGAR MAIN ROAD HARINAGAR CROSS, BANGALORE - 560062
GPS Coordinates	12.816386, 77.819732
Google Maps	https://www.google.com/maps?q=12.816386,77.819732
Visit Date	2026-05-04
Visited By	ABILASH N K
Revision	Rev 2

CLIENT INFORMATION

Client Name	BISINEER PROJECT - MAHATHI SENTHIL
Contact	8867910252

PROJECT DETAILS

Solar Rooftop System Type	Hybrid
System Capacity (kWp)	9.8
Sanction Load (kW)	14
Module Make & Capacity	Waaree Non DCR Topcon, 700 Wp
Module Length (mm)	2384

Module Width (mm)	1303
Number of Panels	14
Inverter Type	Hybrid (String)
Inverter Brand	Deye: 8KW - 48V - LV - Three Phase
Number of Inverters	1
Battery	Needed
Number of Batteries	3
Capacity of each Battery (kWh)	5.12
Battery Model No.	Deye SE-F5plus
Mounting Structure Type	Elevated

SITE INSPECTION CHECKLIST

General

#	Question	Answer	Notes
1	Can the delivery van/truck reach the material unloading point?	Yes	-
2	Are there any obstacles at the site that could hinder material lifting?	No	-
3	Where will the Inverter, DCDB, ACDB, Battery, etc. be located?	In the second floor, the inverter and other accessories can be fixed on the wall, just below the headroom.	-
4	Is a canopy required for protecting the Inverters/ACDB/DCDB?	No	-
5	Did you discuss the location of the earth pits with the customer?	In discussion.	-
6	Where is the Internet Router located?	Building is under construction	-
7	What's the Wi-Fi strength of the router near to the String inverter/Envoy?	Not Available / Under Construction	-
8	Did you pin the site location in your WhatsApp when you were at the site?	Yes	-

Roof Details

#	Question	Answer	Notes
1	What type of roof is present at the site?	RCC Flat Roof	-
2	Are there any obstructions on the roof that could affect the solar installation?	details: Lift head room, a skylight, a water tank	-

#	Question	Answer	Notes
		tower, etc. are present on the roof.	
3	What is the angle of the panels? (in degrees)	10	-
4	In case of sloped roof, what is the slope angle of the roof? (in degrees)	N/A	-
5	On how many roofs at the site are we installing solar?	1	-
6	If it is a Tiled roof, what is underneath the tiles?	N/A	-
7	If it is a Tiled roof with MS or Wooden rafters, is it Single-tiled or Double-tiled?	N/A	-
8	What type of mounting structure is planned?	Elevated	<i>HDGI elevated structure with 2M front height.</i>
9	What is the orientation of the solar panels?	["South"]	-
10	How can the roof be accessed?	Staircase	-
11	Is the building currently under construction?	Yes	-
12	In an under-construction building, are existing conduit pipes available for AC, DC cables, and earthing?	No	<i>No electrical DBs, earth pits or cable routing existed at the site at the time of the site survey.</i>
13	What is the height of the building and how many floors does it have?	15 metres (G + 2 + head room)	-
14	Is the site photo matching with the building description?	Yes	-
15	Is there an overhead HT line passing within a 10-meter radius of the site?	No	-

Residential / Electrical

#	Question	Answer	Notes
1	What type of energy meter is currently installed?	No Meter	<i>A temporary construction-purpose meter is available at the site.</i>
2	Is the Meter cubicle photo matching with the previous answer?	N/A	-
3	Has the termination point in the Main meter panel been identified?	N/A	-
4	Is the Termination Point easily visible or sealed?	N/A	-
5	Is a Lightning Arrestor (LA) already available at the site?	No	-
6	Is space available for CT within Energy meter panel?	N/A	-
7	In case of an Enphase system, is the distance between the farthest micro-inverter and IQ Gateway > 50m?	N/A	-
8	Provide details of the existing CT ratings (if applicable).	N/A	-
9	In Main meter panel, is empty space available for solar meter?	N/A	-
10	In Main meter panel, is empty space available to house the Enphase accessories or ACDB components?	N/A	-
11	Is there space available to dig DC, AC and LA earth pits?	No	<i>In discussion. For now, we have planned the earthing location near the existing meter location.</i>
12	In case of elevated structures, is an LA extension provided at the far end?	Yes	-

#	Question	Answer	Notes
13	In case of elevated structures, is it with or without grouting?	Without Grouting	Customer prefer without grouting.
14	Are there any challenges with respect to Installation and Maintenance activities?	No	-
15	Are there any safety risks associated with accessing the roof for installation?	No	-
16	Is space present in rooftop to store the panels?	Vertically leaning against the wall	-
17	In case of sloped roof MS structure, provide the dimension of rafter to rafter, purlin to purlin.	N/A	-
18	Is ventilation available in the battery location?	Yes	-
19	Should the Inverters/ACDB/DCDB be installed on a metal grill or wall mount?	Wall mounted.	-
20	Provide the dimensions for solar meter cubicle placement (L x W of wall).	length: 2000, width: 3000	-
21	Provide the dimension for earth pits location (L x W of available space).	length: 3000, width: 3000	The area available near the existing EB meter is considered for digging the earth pits as of now.
22	Is LAN cable under customer scope?	Yes	-
23	Is there any shadow that affects the solar installation?	No	-
24	Is there any trench work to be done to carry the AC cable to the meter location?	N/A	-

PHOTO DOCUMENTATION

Cable Routing Legend

Legend	Description
	Proposed PV Module Array
	Main Meter Location
	Solar Meter
	Battery
	Inverter
	Other Equipment
	DC Cable
	AC Cable
	Material Shifting
	DC Earthing Cable
	AC Earthing Cable
	LA Cable
	DC Earth Pit
	AC Earth Pit
	LA Pit
	LA

Site Layout - Top View

Option-1 (Single table, HDGI structure with 2M front height). But partially hiding the SKYLIGHT.

Option-2 (Three Tables, Each HDGI structure with 2M front height). But not hiding the SKYLIGHT.

Building Exterior

Material Delivery Route

Heavy materials such as PV modules can be shifted over the side wall of the building.

Light weight materials can be shifted to the terrace via the inner staircase.

staircase available in the 2nd floor to reach the roof top.

Staircase Details

Staircase width: 1000 mm

Staircase width: 1000 mm

Proposed PV Area

Material Storage

Cable Routing

Earthing cables from DUCT to the earth pits at the front side near EB meter location has to be laid under ground.

Continuing the cable under ground towards the front side earth pit location.

Earth pit location is planned near the EB meter area. The earthing cables has to be pulled till the earth pit under ground.

Meter Box

OBSERVATIONS & RECOMMENDATIONS

EcoSoch Scope

#	Observation
1	Installation and commissioning of 9.8 kWp, Hybrid solar power plant at the proposed premises.

Customer Scope

#	Observation
1	Providing an active Wi-Fi or LAN cable connection up to the inverter location.
2	Providing conduits under ground from Electrical duct to the earth pit location.
3	Providing UPS point near the Inverter and battery location.

THANK YOU

Dear BISINEER PROJECT - MAHATHI SENTHIL,

Thank you for choosing EcoSoch Solar for your solar installation. We appreciate your trust in us and your commitment to sustainable energy. Our team is dedicated to ensuring a seamless installation experience and long-term performance of your solar system.

Should you have any questions or require further assistance, please do not hesitate to reach out to us.

Warm Regards,
Team EcoSoch

& Did You Know?

The Sun burns 600 million tonnes of hydrogen per second — and your panels get a share.

EcoSoch Solar Pvt. Ltd.

#940, Sha Arcade, 2nd Phase, NTI Layout, Kodigehalli, Bengaluru 560097
